**Sale: Wednesday, December 13, 2017**

**Lunch: 12 pm**

**Sale: 1pm**

**Bulls will sell in order of their birth/catalog order**

**Sale Location: Exit off of interstate 90 at the Cardwell, MT exit. Take highway 359 toward Harrison, MT 4-4 1/2 miles to Cemetery Hill Rd ( There is an Armstrong Angus sign along the road) turn right and travel up the gravel road 1/2 mile and turn left, just before the first house on the left. Go 1/4 mile to Chad and Trista's house and the sale is there. Look for signs.**

**Herd Health: The bulls are fertility tested by Dr. Cory Tebay (406-287-3333) Western Veterinary, Whitehall, MT and we guarantee them as sound breeders. The bulls are poured with Vetrimec when we semen test. All females selling have been ultrasounded in late July by Dr. Don Beck, Falon County Vet, Baker, MT and pregnancy tested by Dr. Cory Tebay the day before the sale. They have been poured with Vetrimec and given the first shot of ScourGuard 4KC.**

**Delivery: Bull delivery is free up to 300 miles if there are 3 or more bulls going that direction. Heifer delivery is at your cost.**

**Absentee Bidding: If you can't make the sale, please feel free to call Chad or one of the ring men.**

*Melvin Armstrong*

*Hello Everyone!*

*Thank you for your interest and past support of our breeding program. We are offering approximately 63 2 year old bulls and 8 yearling bulls selected as the easiest calving yearlings. We are also selling 53 commercial bred heifers.*

*This year the bulls will sell in catalog order based on their age (oldest to youngest). The 2 year olds are all forage developed except while they were at the Midland Bull Test for about sixty days being tested for feed efficiency. Their ADG (you will find on a supplement sheet sale day) is from the feed efficiency test. The yearlings are also being tested for feed efficiency. We will deliver the 2 year old bulls as soon after the sale as possible unless other arrangements are made. The yearlings will be fed until spring and be delivered after they have passed a breeding exam.*

*We are not trying to raise the most popular or highest performing cattle for any trait, but are rather breeding for the most profitable cattle for the commercial cattleman. We want our cattle to work for you, not you working for the cattle. We breed mainly to older genetics to get more consistency in what we are trying to raise, yet continually add some outside genetics to see what will improve our cattle's profitability.*

*We thank our Lord and Savior Jesus Christ for being able to raise our family doing what we love, surrounded by our friends and neighbors.*

*We hope to see you sale day, but are more than willing to help you if you can't make it. Just give us a call. You may want to come early to look through the bulls as they sell from oldest to youngest.*

An easy calving bull we used to improve feed efficiency. The daughters have nice udders with small teats. His offspring tend to have more fleshing ability and less frame than most upward cattle.

A great calving ease bull. These calves hit the ground running. He threw more white than we expected and they aren't as quiet as some.

Very easy calving and fleshing, low maintenance bull. His calves come easy and get up quick. His daughters have been quiet, small framed, easy keeping cows that seem to breed up well and stay.

We raised this bull and used him for cleanup. He is a larger framed bull in our herd but seems to be really good feed efficiency.

We used this bull because of his good feed efficiency and outcross pedigree. His offspring seem to have a good disposition. He does have a red gene.

We are very pleased with the first offspring of this Capitalist son from the Midland Bull test. He is proving to be a good calving ease bull with powerful growth in a small thick package. Possibly the quietest cattle we have ever been around.
